

Ursula Carpio

Aba Therapist

Dear Merdith Marsengill,

I am writing to express my strong interest in the ABA Therapist position at the Center for Autism and Related Disorders (CARD). With five years of dedicated experience at Behavioral Innovations, I have honed my skills in applying behavioral analysis principles and techniques to assist children and young adults with autism spectrum disorders. I am excited about the opportunity to bring my expertise to CARD, a renowned institution known for its innovative approaches and commitment to improving the lives of those affected by autism.

Throughout my tenure at Behavioral Innovations, I have had the privilege of working with a diverse group of clients, each with unique needs and challenges. My approach has always been client-centered, focusing on developing individualized treatment plans that promote independence, communication, and social skills. I have been successful in implementing evidence-based interventions that have resulted in measurable improvements in behavior and skill acquisition for my clients. This experience has not only strengthened my technical abilities but has also deepened my compassion and understanding of the intricacies involved in supporting individuals with autism and their families.

I am particularly proud of my ability to collaborate effectively with parents, caregivers, and other professionals to ensure a cohesive and supportive environment for our clients. My commitment to ongoing professional development has kept me abreast of the latest research and techniques in the field of applied behavior analysis, allowing me to incorporate these best practices into my work. I am confident that my proactive approach to staying informed and my dedication to continuous learning will be an asset to the CARD team.

Additionally, I possess strong observational and analytical skills that enable me to assess client progress accurately and adapt interventions as needed. My experience in data collection and analysis ensures that I can provide clear and concise reports that inform treatment decisions and demonstrate outcomes to stakeholders. I am adept at using technology to enhance therapy sessions and am always looking for innovative ways to engage clients and support their development.

I am enthusiastic about the opportunity to contribute to CARD's mission to provide top-quality behavioral health services. I am eager to work within an organization that values collaboration, innovation, and a commitment to excellence. I look forward to the possibility of discussing how my background, skills, and enthusiasm for ABA therapy make me an ideal candidate for this position.

Thank you for considering my application. I am looking forward to the opportunity to further discuss how I can contribute to the great work being done at the Center for Autism and Related Disorders.

Warm regards,

To

Center for Autism and Related Disorders (CARD)
