

Ellajane Puttman

Actuary

Profile

Diligent and detail-oriented Actuarial professional with 1 year of experience in the insurance industry. Strong analytical skills, proficiency in using actuarial software, and a solid understanding of financial and statistical concepts. Adept at risk assessment, data analysis, and pricing models, with a proven ability to deliver accurate and timely results. Effective communicator and team player, committed to continuous learning and professional growth.

Employment History

Actuary at Towers Watson, FL

Apr 2023 - Present

- Successfully reduced client's projected pension liabilities by 15% (\$2 million) through innovative plan redesign and strategy implementation, resulting in significant cost savings for the company.
- Conducted comprehensive risk analysis for a major insurance client, identifying potential areas of exposure and recommending mitigation strategies that ultimately decreased their annual claims costs by 8% (\$1.5 million).
- Streamlined Towers Watson's actuarial data analysis process, increasing efficiency by 20% and reducing turnaround time for client deliverables by 10%, leading to increased client satisfaction and retention rates.

Associate Actuary at Milliman, FL

Jul 2022 - Feb 2023

- Successfully completed a reserve analysis for a major client, resulting in a 15% reduction in required reserves and saving the client \$2 million in potential capital requirements.
- Streamlined the pricing process for a new insurance product, cutting the time required for analysis by 30% and enabling the client to launch the product two months ahead of schedule.
- Led a team that developed an innovative risk management strategy for a large insurer, ultimately reducing their risk exposure by 25% and increasing annual profits by \$1.5 million.
