Employment History

Adjunct Instructor at Anne Arundel Community College, MD

Mar 2023 - Present

- Developed and implemented an innovative course curriculum for an introductory biology class, resulting in a 25% increase in student engagement and a 15% improvement in average test scores over a two-year period.
- Successfully mentored and guided 30 students through research projects, leading to 10 students presenting their findings at regional conferences and 5 students receiving awards for their work.
- Collaborated with fellow instructors to design and launch an interdisciplinary science seminar series, drawing an average attendance of 100+ community members and students per event, fostering increased interest and enrollment in science programs at Anne Arundel Community College.

Assistant Adjunct Instructor at University of Maryland Global Campus, MD

Sep 2022 - Jan 2023

- Developed and implemented a new course curriculum for the Introduction to Data Science course, which increased student enrollment by 25% and received a 95% satisfaction rating from students.
- Successfully mentored and advised 50+ students each semester, resulting in a 90% course completion rate and a 15% increase in students pursuing advanced degrees in related fields.
- Collaborated with fellow faculty members to secure a \$100,000 research grant from the National Science Foundation, which led to the development of innovative teaching methods and resources for the department.
- Organized and led a series of workshops and seminars for both students and faculty, attracting over 200 attendees and fostering a collaborative learning environment within the department.
