Employment History

Adjunct Professor at University of Mississippi, MS

Mar 2023 - Present

- Developed and implemented a new interdisciplinary course on sustainability, leading to a 20% increase in course enrollment within the first semester and receiving positive feedback from 90% of students in anonymous evaluations.
- Secured a \$50,000 grant for the university's research department by collaborating with colleagues from various disciplines to develop a proposal, resulting in a significant expansion of resources and opportunities for undergraduate research projects.
- Mentored and supervised over 30 undergraduate students during their capstone projects, with 95% of them successfully presenting their research at regional and national conferences and 5 students going on to publish their work in peer-reviewed journals.

Assistant Adjunct Professor at Mississippi State University, MS

Aug 2022 - Feb 2023

- Developed and implemented a new interdisciplinary course on sustainability, which attracted over 150 students in its first year and received a 95% positive feedback rating from course evaluations.
- Secured \$200,000 in grant funding from the National Science Foundation to support research on the impact of climate change on agricultural production, leading to the publication of three peer-reviewed journal articles and several conference presentations.
- Mentored 20 undergraduate and graduate students in research projects, with 50% of them going on to pursue advanced degrees or secure positions in academia or industry.
- Collaborated with colleagues to redesign the department's curriculum, resulting in a 30% increase in student enrollment and a 10% improvement in average student retention rates over a three-year period.
