Danyele Marfell

Cybersecurity Analyst

👤 Profile

I am a Cybersecurity Analyst with over 2 years of experience in the IT Security field. I have a strong background in information security, risk management, and network security. My experience includes conducting security assessments, designing security systems and processes, and managing security incidents. I have strong technical skills in network protection, malware analysis, and security incident response. I am also experienced in developing security policies and procedures, performing vulnerability assessments and penetration tests, and providing security awareness training to end-users. I am a team player with excellent communication skills and an ability to work collaboratively with colleagues to ensure the highest level of security.

💼 Employment History

Senior Cybersecurity Analyst at Trustwave, VT

Nov 2022 - Present

- Developed a security architecture for the Trustwave Virtual Threat (VT) platform, resulting in improved visibility and control of customer data. This resulted in an 85% reduction of system vulnerabilities over six months.
- Led team efforts to develop advanced analytics capabilities within VT that enabled real-time threat detection with 95% accuracy rate across all platforms tested.
- Designed and implemented automated incident response processes on the VT platform which reduced manual labor by 60%.
- .
- Spearheaded successful penetration testing projects for three major clients using our proprietary tools, reducing potential threats from external sources by 70%.

Cybersecurity Analyst at Vulnerability Management Solutions, VT

Jul 2021 - Sep 2022

- Developed and implemented a new vulnerability management process that reduced the average time to remediate critical vulnerabilities from 12 days to 5.
- Implemented an automated patching system, resulting in 100% compliance with security patches within 8 months of deployment.
- Spearheaded successful penetration testing projects for three clients which resulted in no data breach incidents over a 2-year period.
- Established secure connections between remotely located networks across five different countries while maintaining 99% uptime during peak hours of operation at VT Solutions Vulnerability Management Department.

🎓 Education

Bachelor of Science in Cybersecurity at Champlain College, Burlington, VT

Sep 2017 - May 2021
