Evelyne Tidrow

IT Project Manager

I am an IT Project Manager with over 3 years of experience in delivering successful digital transformation projects. My expertise lies in directing all stages of the project life cycle, from inception to completion, while providing strategic guidance to ensure efficient and cost-effective outcomes. I am highly skilled in managing stakeholders, resources, and budgets, as well as identifying, assessing, and mitigating risks. My success in project delivery has been achieved through the development of best practices, policies, and procedures that prioritize quality, safety, and customer satisfaction.

Employment History

IT Project Manager at Lockheed Martin Corporation, CO

Sep 2022 - Present

- Achieved successful completion of a multi-million dollar project to develop an automated data processing system for the US Air Force in just 6 months. This involved coordinating and managing over 50 personnel from multiple departments, including IT professionals, software engineers, analysts and technicians.
- The resulting system allowed the Air Force to process their mission critical information more quickly than ever before with improved accuracy by up to 30%.
- Spearheaded implementation of a new enterprise resource planning (ERP) application across Lockheed Martin's global operations that streamlined processes such as inventory management and accounts payable/receivable functions. The ERP was implemented on time within budget while maintaining high levels of customer satisfaction throughout its deployment .
- Developed innovative strategies for reducing costs associated with large scale projects through utilization of cutting edge technologies like cloud computing which resulted in cost savings estimated at $2 million annually.
- Coordinated efforts between various stakeholders during development phase ensuring smooth transition into production environment without any disruption or down times; delivered all programs right first time around improving overall efficiency by 10%.

Associate IT Project Manager at Verizon Communications Inc., CO

Sep 2020 - Jul 2022

- Led successful implementation of VoIP technology at Verizon Communications Inc., CO, resulting in a 15% reduction in communication costs.
- Developed an IT project budgeting system that saved the company over $25K annually by streamlining processes and reducing redundancies.
- Spearheaded training program for new employees on software development tools which improved employee productivity by 20%.
- Orchestrated migration from legacy systems to cloud-based solutions without any downtime or disruption to business operations across multiple departments within Verizon Co.
