

Tannya Karvelis

Animal Care Technician

Profile

Dedicated Animal Care Technician with 1 year of experience providing compassionate care to various animal species. Proficient in maintaining clean and safe environments, administering medications and treatments, and assisting with medical procedures. Strong teamwork and communication skills, with a focus on promoting animal welfare and fostering positive human-animal relationships.

Employment History

Animal Care Technician at Hawaii Animal Care, HI

May 2023 - Present

- Successfully maintained a 98% health and safety record for over 500 animals under care, ensuring proper nutrition, cleanliness, and medical attention.
- Implemented a new animal enrichment program that increased overall behavioral wellness by 25%, leading to a decrease in stress-related illnesses and injuries.
- Trained and supervised a team of 10 volunteers, resulting in a 20% increase in productivity and overall improvement in animal care quality.
- Assisted in the successful rehabilitation and release of 50 native Hawaiian species back into their natural habitats, contributing to local conservation efforts.

Animal Care Assistant at VCA Animal Hospitals, HI

Jul 2022 - Mar 2023

- Successfully assisted in the treatment and care of over 1,500 animals during a one-year period, contributing to a 95% recovery rate for patients at VCA Animal Hospitals, HI.
- Streamlined the animal intake process by implementing an efficient digital record-keeping system, reducing administrative tasks by 30% and allowing more time for hands-on animal care.
- Achieved a 98% customer satisfaction rating through exceptional communication and support for pet owners, resulting in a 20% increase in repeat clients for VCA Animal Hospitals, HI.
- Led a team of 10 volunteers in a community outreach program, providing free vaccinations and basic healthcare services to over 200 pets belonging to low-income families in the local area.
