(802) 549-5980

Madison, WI

### Profile

I am a Cloud Solutions Architect with over 3 years of experience in designing, developing, and deploying cloud-based solutions. My expertise lies in architecting, building, and managing public and private cloud solutions, from establishing cloud strategies, to designing and deploying cloud solutions. I have extensive experience in implementing solutions in AWS, GCP, and Azure, and I have managed projects across multiple cloud platforms. My experience also includes developing automation solutions for cloud environments, deploying cloud-native applications, and leveraging DevOps best practices. I am a certified AWS Solutions Architect (Professional) and I have a strong understanding of AWS services and solutions. I am passionate about leveraging the cloud to create cost-effective, secure, and reliable solutions that enable businesses to reach their goals.

### Employment History

#### Senior Cloud Solutions Architect at IBM, WI

Nov 2022 - Present

- Implemented an IBM Cloud platform for a Fortune 500 client, resulting in a 25% reduction in costs and an increase in scalability.
- Developed and deployed a hybrid cloud solution for a large healthcare provider, reducing user response times by 50%.
- Built a multi-cloud strategy for a major airline, enabling them to migrate workloads across public and private clouds while maintaining security and compliance requirements.
- Led a team of engineers to design and deploy a cloud-based analytics platform for a leading financial services firm, allowing them to process data faster and with greater accuracy.

#### Cloud Solutions Architect at Google Cloud Platform, WI

Aug 2020 - Sep 2022

- Developed an automated cloud-based solution for a major healthcare provider, resulting in a 40% reduction in system downtime and a 50% increase in operational efficiency.
- Implemented a comprehensive cloud migration strategy for a large financial services firm, resulting in a 25% reduction in infrastructure costs and a 20% increase in scalability.
- Designed and implemented a secure cloud architecture for a leading telecommunications company, resulting in a 90% reduction in data breaches.
- Led a team of engineers in deploying a multi-cloud environment for a global retail brand, resulting in a 30% improvement in service availability and a 15% reduction in total cost of ownership.
