

Dilia Flannagan

Front End Developer

Profile

I am an experienced Front End Developer with over 1 year of experience in developing web applications, mobile applications and websites. My expertise lies in developing responsive user interfaces and creating high-performance, interactive user experiences. I have a strong knowledge of HTML5, CSS3, JavaScript, AJAX, JSON, jQuery, Bootstrap, and other web development languages and frameworks. I also have a strong understanding of web optimization techniques and debugging tools. I have a proven track record of successfully completing projects on time and within budget. I am highly organized and self-motivated, with excellent problem-solving and communication skills.

Employment History

Lead Front End Developer at Adobe Systems, OK

Oct 2022 - Present

- Developed an interactive web application for Adobe Systems that increased user engagement by 30% and reduced page load time by 50%.
- Implemented innovative front-end technologies such as React.js, Node.js, and HTML5 to enhance the user experience, resulting in a 25% increase in website visits.
- Refactored legacy codebase, resulting in a 40% improvement in performance and scalability.
- Worked closely with back-end developers to create a unified API layer, which enabled cross-platform compatibility and a consistent user experience across all devices.
