

Asa Porpiglia

Software Release Engineer

Profile

I am a Software Release Engineer with over 2 years of experience in managing software releases, building automation pipelines, and performing maintenance of software products. I have a solid understanding of software development lifecycle and the ability to coordinate tasks between departments. Additionally, I am highly proficient in various scripting and automation tools such as Jenkins, JIRA, and Python. My experience includes automating build and release processes, ensuring quality assurance standards, and troubleshooting customer issues. I am passionate about developing software products and I am confident in my ability to deliver high-quality results.

Employment History
