Sioux Falls, SD

Profile

As a Web Developer with over 1 year of experience in developing and testing web applications, I possess a passion for creating user-friendly, high performance websites. Leveraging my knowledge of HTML/CSS, JavaScript, React, and Angular, I have built and deployed a variety of websites for clients. I have also gained experience in troubleshooting and resolving any technical issues that arise. I enjoy working collaboratively with cross-functional teams and have a strong commitment to delivering quality results in a timely manner.

Employment History

Senior Web Developer at Logical Solutions Inc., SD

Oct 2022 - Present

- Developed and maintained a custom e-commerce website for Logical Solutions Inc., SD, resulting in an increase in sales revenue of 30% within the first six months of launch.
- Led the development of a web-based application for Logical Solutions Inc., SD, which enabled customers to track their orders in real time, resulting in a 20% reduction in customer support inquiries.
- Implemented a content management system for Logical Solutions Inc., SD, which streamlined the editing and publishing process, resulting in a 40% decrease in time spent on content updates.

Web Developer at Morgan Web Solutions, SD

Jul 2022 - Aug 2022

- Developed a new e-commerce website for a client that generated over \$200,000 in revenue within the first 6 months of launch. Utilized HTML, CSS, and JavaScript to create a modern, user-friendly design.
- Implemented a content management system on a client's website that increased web traffic by 40% within the first month of launch. Utilized WordPress to develop a custom theme that improved the user experience.
- Optimized a client's website for mobile devices, resulting in a 25% increase in mobile traffic. Used media queries and responsive design techniques to ensure the website was optimized for all devices.
