Creating scale models

PROFILE

A detail-oriented Architectural Draftsman with 1 year of experience in producing high-quality technical drawings and 3D models for various architectural projects. Proficient in AutoCAD and Revit, with a strong understanding of architectural principles and design concepts. Demonstrated ability to collaborate effectively with team members while meeting strict deadlines and maintaining adherence to project requirements. Eager to contribute skills and passion for architectural design in a dynamic work environment.

EMPLOYMENT HISTORY

- Architectural Draftsman at EAPC Architects Engineers, ND

Apr 2023 - Present

- Completed the design and drafting of a 50,000 sq. ft. commercial building project, resulting in a 10% reduction in construction time and a 5% cost savings for the client.
 - Successfully managed and executed over 25 projects within a one-year period, maintaining a 100% on-time completion rate and receiving positive feedback from clients for accuracy and attention to detail.
 - Led a team of 4 draftsmen in the creation of detailed construction documents for a \$10 million residential development project, ensuring compliance with local building codes and client specifications.
 - Developed a new drafting process using advanced software tools, resulting in a 15% increase in efficiency and reducing project turnaround times by an average of 3 days.
- Junior Architectural Draftsman at JLG Architects, ND

Aug 2022 - Feb 2023

- Successfully contributed to the completion of over 30 architectural projects within a span of two years at JLG Architects, ND, showcasing efficiency and diligence in drafting and design work.
 - Played a crucial role in the design and drafting of a 50,000 sq. ft. commercial building project in North Dakota, which was completed on time and within the allocated budget, leading to a satisfied client and positive feedback for the team.
 - Streamlined the drafting process by implementing new AutoCAD techniques and software add-ons, resulting in a 20% increase in overall drafting speed and efficiency for the team.
 - Collaborated effectively with senior architects and project managers to develop detailed design and construction documents for a \$5 million residential development, which was completed ahead of schedule and received recognition from local design award committees.

CERTIFICATES

- Autodesk Certified Professional (ACP) in AutoCAD

Mar 2022
- LEED Green Associate or LEED Accredited Professional (LEED AP)

Dec 2020
