

Garry Barndollar

Aviation Mechanic

Profile

A skilled Aviation Mechanic with 2 years of experience in performing maintenance, repair, and inspection tasks on various aircraft systems. Proficient in diagnosing malfunctions, adhering to regulations, and utilizing troubleshooting techniques to ensure optimal performance and safety. Demonstrates exceptional attention to detail, adaptability, and teamwork to deliver efficient and reliable support in a fast-paced aviation environment.

Employment History

Aviation Mechanic at Louisville Aviation, KY

Apr 2023 - Present

- Successfully completed over 1,500 routine and emergency aircraft maintenance tasks within a year, ensuring a 98% on-time departure rate for all flights at Louisville Aviation.
- Streamlined the maintenance process by implementing a new inventory management system, reducing turnaround time by 30% and increasing overall efficiency by 25%.
- Led a team of 10 aviation mechanics in a major overhaul project of a Boeing 737, completing the project two weeks ahead of schedule and reducing overall costs by 15%.

Aircraft Maintenance Technician at Blue Grass Airport Aircraft Maintenance, KY

Aug 2021 - Feb 2023

- Successfully completed a major aircraft inspection on schedule, resulting in an on-time return to service for a critical flight at Blue Grass Airport, KY.
- Overhauled and repaired 12 aircraft engines within a year, contributing to a 15% increase in overall aircraft availability and a reduction in maintenance downtime.
- Implemented a new preventive maintenance program that led to a 20% reduction in unscheduled repairs, improving aircraft reliability and reducing costs for the company.
- Trained and mentored 10 junior technicians, increasing their efficiency by 25% and enhancing the overall performance of the maintenance team at Blue Grass Airport, KY.

Education

Associate of Applied Science in Aviation Maintenance Technology at Bluegrass Community and Technical College, Lexington, KY

Sep 2016 - May 2021

Relevant Coursework: Aircraft Maintenance and Inspection, Avionics Systems, Aircraft Electrical Systems, Gas Turbine Engines, Aircraft Structures and Materials, Hydraulic and Pneumatic Systems, Aircraft Propulsion, Aviation Safety and Regulations, and Aviation Maintenance Management.
