

Daniah Cascaden

Aviation Technician

Profile

Enthusiastic Aviation Technician with a solid year of hands-on experience in aircraft maintenance, repair, and inspection. Proficient in troubleshooting and diagnosing mechanical issues, adhering to safety regulations, and maintaining detailed documentation. Strong team player with excellent communication skills, eager to contribute to the success of a dynamic aviation team.

Employment History

Aviation Technician at Aerotek, NV

May 2023 - Present

- Successfully diagnosed and repaired over 150 aircraft electrical systems within a year, leading to a 95% on-time departure rate for the company.
- Streamlined maintenance processes by implementing a new inventory management system, resulting in a 30% reduction in time spent locating parts and tools, and a 10% increase in overall productivity.
- Trained and mentored 10 new aviation technicians, contributing to a 50% reduction in training time and ensuring a consistently high level of expertise across the team.

Associate Aviation Technician at Bombardier, NV

Sep 2022 - Apr 2023

- Successfully completed 150+ aircraft maintenance tasks in a year, contributing to a 30% increase in operational efficiency for Bombardier, NV.
- Led a team of 5 technicians in troubleshooting and repairing a critical avionics system failure, resulting in a 95% on-time departure rate for the company's fleet.
- Implemented a new inventory management system that reduced parts procurement time by 25%, increasing productivity and minimizing aircraft downtime.
- Conducted 50+ comprehensive aircraft inspections, ensuring compliance with FAA regulations and maintaining an impeccable safety record for Bombardier's fleet.
