EMPLOYMENT HISTORY

Backup Administrator at Acadiana Computer Systems, LA

Mar 2023 - Present

- Successfully implemented a comprehensive backup strategy, resulting in a 30% reduction in data loss incidents and a 50% improvement in recovery time for critical systems at Acadiana Computer Systems.
- Oversaw the migration of over 200TB of data to a new, more efficient backup infrastructure, leading to a 20% decrease in backup times and a 15% reduction in storage costs.
- Developed and delivered training programs for 50+ IT staff members on backup administration best practices, contributing to a 40% decrease in user-related backup errors and improving overall system reliability.

Associate Backup Administrator at EATEL Business, LA

Jul 2022 - Jan 2023

- Implemented an efficient backup strategy that reduced recovery time by 30% and increased overall system performance by 20% for EATEL Business clients.
- Streamlined the process of monitoring and maintaining over 300 backup servers, resulting in a 15% reduction in downtime and a 10% improvement in customer satisfaction rates.
- Successfully migrated 50+ client accounts to a new backup platform within a tight deadline of two months, ensuring seamless data transfer with minimal disruption to business operations.
- Trained and mentored a team of 5 junior administrators, leading to a 25% increase in productivity and a 15% decrease in response time for backup-related issues.
