PROFILE

Dedicated Biomedical Equipment Technician with 1 year of experience in the installation, maintenance, and repair of biomedical equipment. Proficient in troubleshooting and conducting preventive maintenance to ensure equipment reliability and compliance with industry standards. Strong communication skills, adept at collaborating with healthcare professionals to provide seamless patient care. Committed to continuous learning and staying updated on the latest advancements in medical technology.

EMPLOYMENT HISTORY

● Biomedical Equipment Technician at University of Maryland Medical Center, MD

Apr 2023 - Present

- Implemented a preventive maintenance program for over 1,500 medical devices across the University of Maryland Medical Center, resulting in a 20% reduction in equipment downtime and a 15% increase in patient safety scores.
- Successfully managed a team of technicians to complete an extensive equipment upgrade project within six months, replacing outdated devices with state-of-the-art technology and improving the overall efficiency of the hospital by 25%.
- Streamlined the biomedical equipment repair process, reducing average device repair time by 30% and saving the hospital over \$50,000 in annual repair costs.

● Biomedical Equipment Technician I at Johns Hopkins Hospital, MD

Sep 2022 - Feb 2023

- Successfully maintained and repaired over 500 pieces of biomedical equipment, including patient monitors, defibrillators, and ventilators, ensuring optimal performance and minimizing downtime in critical care units.
- Streamlined the preventative maintenance process by implementing a new tracking system, resulting in a 20% increase in efficiency and reducing equipment downtime by 15%.
- Trained and mentored 10 junior technicians, enhancing their technical skills and contributing to a 25% improvement in overall departmental productivity.
