

Ollie Pavloff

Blood Bank Technologist

Profile

Blood Bank Technologist with 2 years of experience in conducting blood testing and transfusion procedures, ensuring accurate and compliant handling of blood samples, and maintaining a safe and efficient laboratory environment. Demonstrated proficiency in operating and maintaining laboratory equipment, adhering to regulatory guidelines, and working collaboratively in a team setting. Possesses strong analytical, communication, and problem-solving skills, contributing to high-quality patient care and blood bank operations.

Employment History

Blood Bank Technologist at Nebraska Community Blood Bank, NE

Feb 2023 - Present

- Successfully implemented a new blood testing technology, resulting in a 20% increase in efficiency and reducing turnaround time for test results by 12 hours, enhancing the overall quality of services provided to hospitals and patients.
- Streamlined the blood donation process by developing and implementing a new donor screening system, which led to a 15% increase in donor retention and a 10% growth in total blood donations collected annually.
- Played a key role in achieving a 99.8% accuracy rate in blood typing and compatibility testing, surpassing the industry standard of 99.5%, ensuring a high level of patient safety and satisfaction across Nebraska Community Blood Bank's partner hospitals.

Blood Bank Technologist Trainee at CHI Health Blood Bank, NE

Aug 2021 - Jan 2023

- Successfully completed a comprehensive training program in blood bank technology, gaining hands-on experience with various testing procedures and equipment.
- Proficiently processed and tested over 500 blood samples per month, ensuring accurate results and timely delivery to patients in need of transfusions.
- Assisted in implementing a new inventory management system, resulting in a 20% reduction in blood product waste and improved efficiency in the blood bank.
- Contributed to a team effort that led to a 15% increase in donor recruitment, helping to maintain a consistent and reliable supply of blood products for the hospital.
