

# Tamea Mollett

Clinical Systems Analyst

## Profile

Results-driven Clinical Systems Analyst with 2 years of experience in optimizing healthcare information systems to enhance patient care and streamline workflows. Adept at analyzing clinical data, implementing system improvements, and providing technical support to interdisciplinary teams. Proven ability to collaborate with stakeholders, ensuring efficient system operations and compliance with regulatory requirements. Committed to leveraging technical expertise to drive healthcare innovation and improve patient outcomes.

## Employment History

### Clinical Systems Analyst at Inova Health System, VA

Apr 2023 - Present

- Successfully implemented a new Electronic Health Record (EHR) system across all Inova Health System facilities, resulting in a 25% reduction in patient wait times and a 15% increase in overall patient satisfaction scores within the first year.
- Streamlined clinical workflows and optimized system configurations, leading to a 35% improvement in clinician efficiency and a 20% reduction in documentation errors within six months of implementation.
- Coordinated with cross-functional teams to develop and deliver comprehensive training programs for over 2,000 clinical staff members, ensuring a smooth transition to the new EHR system and contributing to a 10% increase in staff proficiency levels.

### Associate Clinical Systems Analyst at Sentara Healthcare, VA

Sep 2021 - Feb 2023

- Successfully led the implementation of a new Electronic Health Record (EHR) system across 12 hospitals, improving patient data accessibility and reducing manual data entry errors by 30%.
- Streamlined the clinical workflow for over 1,000 healthcare providers by designing and deploying customized EHR templates, resulting in a 20% increase in efficiency and a 15% reduction in clinical documentation time.
- Coordinated with cross-functional teams to identify and resolve over 200 system-related issues within six months, leading to a 50% reduction in helpdesk tickets and a 25% improvement in overall system performance.
- Trained and mentored 50+ new clinical systems analysts, contributing to a 40% increase in team productivity and a 30% reduction in onboarding time for new hires.
