Nickie Witucki

Cobol Developer

👤 Profile

Results-driven Cobol Developer with 1 year of experience in designing, coding, and implementing high-quality Cobol applications. Adept at translating business requirements into effective technical solutions, ensuring timely delivery of projects, and seamlessly collaborating with cross-functional teams. Skilled in troubleshooting, debugging, and maintaining legacy systems, while always seeking opportunities for professional growth and development.

💼 Employment History

Cobol Developer at COBOL-IT, IN

May 2023 - Present

- Successfully migrated a critical mainframe application to a distributed environment, resulting in a 35% reduction in operating costs and a 25% increase in processing speed.
- Developed and implemented a new batch processing system for a major client, leading to a 50% reduction in processing time and a 30% increase in overall efficiency.
- Led a team of developers in the modernization of a legacy COBOL application, incorporating new technologies and best practices, which improved system performance by 40% and reduced maintenance costs by 20%.

Junior Cobol Developer at Celerit, IN

Aug 2022 - Mar 2023

- Developed and implemented a new billing module for a major client, resulting in a 20% reduction in processing time and a 15% increase in overall system efficiency.
- Successfully migrated 50+ legacy applications to the latest version of COBOL, ensuring seamless integration with modern systems and reducing maintenance costs by 30%.
- Streamlined the codebase of a core banking application, reducing the total lines of code by 10% and improving system performance by 12%.

🎓 Education

Bachelor of Science in Computer Science with a specialization in COBOL Development at Indiana University Bloomington, IN

Sep 2018 - May 2022

Relevant Coursework: COBOL Programming, Data Structures & Algorithms, Operating Systems, Database Management, Software Development, Systems Analysis, and Computer Networks.

📋 Certificates

IBM Certified Specialist - COBOL Programming

Jan 2022

Micro Focus Accredited Developer for Enterprise COBOL
