Profile

A results-driven Construction Consultant with 5 years of experience in providing expert guidance on construction projects, specializing in cost management, risk assessment, and contract administration. Proficient in analyzing and streamlining processes to optimize project efficiency, ensuring timely completion and budget adherence. Adept at fostering strong relationships with clients, vendors, and stakeholders, delivering exceptional service and value to every project.

Employment History

Construction Consultant at North Dakota Consulting Group, ND

May 2023 - Present

- Successfully managed the construction of a 50,000 square foot commercial building in Fargo, resulting in a 10% cost savings and completion two months ahead of schedule.
- Oversaw the renovation of a historic downtown hotel in Bismarck, preserving its architectural integrity while modernizing the facilities, leading to a 25% increase in bookings and a 20% increase in overall revenue.
- Implemented innovative construction techniques and materials for a large-scale residential development in Minot, reducing energy consumption by 30% and earning a LEED Platinum certification for the project.
- Directed the construction of a new highway interchange in Grand Forks, improving traffic flow and safety, and completing the project within budget and three months ahead of schedule.

Assistant Construction Consultant at Prairie Engineering, ND

Sep 2018 - Mar 2023

- Successfully managed a \$5 million commercial construction project, ensuring its completion 2 weeks ahead of schedule and 10% under budget, resulting in increased client satisfaction and repeat business.
- Streamlined the procurement process for construction materials, leading to a 15% reduction in material costs and an overall project savings of \$750,000 across multiple projects within the year.
- Developed and implemented a new safety training program for all site personnel, reducing workplace accidents by 40%, improving overall site safety, and contributing to Prairie Engineering's reputation as a safety-conscious employer.
