Profile

Database Coordinator with 2 years of experience in managing and maintaining database systems. Proficient in ensuring data integrity, implementing security measures, and optimizing performance. Demonstrated ability to coordinate with cross-functional teams, troubleshoot issues, and streamline processes for improved efficiency. Committed to enhancing data-driven decision-making and supporting organizational growth.

Employment History

Database Coordinator at Oracle Corporation, CA

May 2023 - Present

- Successfully migrated 2,000+ databases to Oracle Cloud Infrastructure within a six-month timeframe, resulting in a 40% reduction in operational costs and a 35% increase in performance efficiency.
- Streamlined the database maintenance process by implementing an automated system that reduced manual tasks by 60%, leading to a 25% increase in overall productivity for the team.
- Led a cross-functional team of 10 members to optimize the database structure and improve query performance, resulting in a 30% reduction in response time and a 20% increase in customer satisfaction.
- Designed and implemented a comprehensive data backup and recovery strategy that improved the recovery time objective (RTO) by 50% and recovery point objective (RPO) by 75%, ensuring minimal downtime and business continuity.

Assistant Database Coordinator at Salesforce Inc., CA

Sep 2021 - Apr 2023

- Successfully managed and optimized over 500 databases, resulting in a 25% increase in overall system performance and a reduction in database-related downtime by 30%.
- Streamlined data migration processes for over 100 clients, reducing the average migration time by 40% and increasing client satisfaction rates by 20%.
- Implemented new data security protocols and trained a team of 10 database administrators, leading to a 50% reduction in security breaches and improved compliance with industry regulations.
