## Employment History

### Database Administrator at Minnesota Brands & Designs, MN

Apr 2023 - Present

- Spearheaded the successful migration of Minnesota Brands & Designs' entire database system to a more efficient and secure cloud-based platform, resulting in a 30% reduction in server downtime and a 25% increase in overall system performance.
- Optimized database queries and implemented advanced indexing strategies, leading to a 40% improvement in query response times and a 20% reduction in resource consumption, significantly enhancing end-user experience.
- Developed and executed comprehensive backup and recovery plans for critical company data, ensuring 99.99% data availability and reducing the recovery time objective (RTO) by 50% in case of unexpected data loss events.
- Streamlined the database administration processes by automating routine maintenance tasks and implementing standardized protocols, leading to a 35% reduction in man-hours spent on manual tasks and improving overall team productivity.

### Junior Database Administrator at North Star Business Solutions, MN

Aug 2021 - Mar 2023

- Successfully managed and maintained over 50 client databases, resulting in a 99.5% uptime and ensuring smooth business operations for North Star Business Solutions.
- Streamlined the database backup and recovery process, reducing the average recovery time by 35% and increasing the efficiency of the overall data management system.
- Implemented database performance monitoring and optimization tools, which led to a 25% improvement in query response times and enhanced user experience.
- Collaborated with the development team to successfully migrate three major client databases to cloud-based solutions, reducing operational costs by 20% and improving scalability for future growth.

## Certificates

### Oracle Database Administrator Certified Professional (OCP)

Apr 2022

**Microsoft Certified: Azure Database Administrator Associate**
