

Avenlea Malaty

Director of Environmental Services

Profile

A dedicated and results-driven Director of Environmental Services with 5 years of experience in overseeing environmental programs and initiatives. Adept at developing and implementing strategic plans, managing budgets, and ensuring regulatory compliance. Proven track record of leading cross-functional teams, improving operational efficiency, and driving sustainable practices. Strong commitment to environmental stewardship and fostering a culture of continuous improvement.

Employment History

Director of Environmental Services at Casella Waste Systems, VT

Apr 2023 - Present

- Successfully implemented a comprehensive waste reduction program, resulting in a 25% decrease in waste generation and saving the company \$1.5 million annually.
- Developed and executed an innovative recycling initiative that increased the company's recycling rate by 40%, diverting over 10,000 tons of waste from landfills each year.
- Spearheaded an environmental compliance strategy that led to a 30% reduction in greenhouse gas emissions and a 100% compliance rate with state and federal regulations, avoiding potential fines and enhancing the company's reputation for environmental stewardship.

Assistant Director of Environmental Services at Green Mountain Environmental Services, VT

Sep 2018 - Mar 2023

- Successfully implemented a waste management program that resulted in a 30% reduction in landfill waste generated by Green Mountain Environmental Services, VT within two years.
- Led a team of 20 professionals in the development and execution of a comprehensive environmental compliance strategy, ensuring 98% adherence to all federal and state regulations over a three-year period.
- Oversaw the negotiation and awarding of a \$2 million contract for the installation of renewable energy systems at Green Mountain Environmental Services facilities, resulting in a 25% reduction in annual energy costs.
- Coordinated an extensive public outreach campaign that educated over 10,000 Vermont residents on proper recycling practices and led to a 15% increase in recycling rates within the community during a one-year period.
