## Profile

Dedicated Early Intervention Specialist with 1 year of experience in providing individualized support to young children with developmental delays. Strong background in developing and implementing tailored intervention plans, fostering positive family relationships, and coordinating with multidisciplinary teams. Committed to promoting the well-being and growth of every child through a holistic approach to early intervention services.

## Employment History

### Early Intervention Specialist at Easterseals New Hampshire, NH

Mar 2023 - Present

- Successfully increased the enrollment of children with developmental disabilities by 35% within one year, by implementing targeted outreach and awareness campaigns in partnership with local healthcare providers and community organizations.
- Developed and delivered a new training program for over 50 staff members, resulting in a 20% improvement in the quality of services provided, as measured by parent satisfaction surveys and progress reports.
- Collaborated with a team to secure \$150,000 in grant funding to expand the Early Intervention program, allowing the organization to serve an additional 75 children and their families annually.
- Led a multidisciplinary team in creating and implementing individualized family service plans (IFSPs) for over 200 children, resulting in 85% of participants achieving their developmental milestones within the targeted timeframes.

### Associate Early Intervention Specialist at The Moore Center, NH

Jul 2022 - Feb 2023

- Successfully increased the enrollment of children in early intervention programs by 35% within a year, through targeted outreach initiatives and collaboration with local healthcare providers at The Moore Center, NH.
- Implemented an innovative and comprehensive training program for parents and caregivers, resulting in a 50% improvement in the utilization of home-based strategies to support child development within six months.
- Streamlined the assessment process for new clients, reducing the average waiting time for initial evaluations by 20%, ensuring timely access to essential services for children and families at The Moore Center, NH.
