Emergency Medical Technician

## Profile

Dedicated Emergency Medical Technician with 1 year of experience providing efficient and quality pre-hospital care in high-pressure situations. Proficient in patient assessment, vital signs monitoring, and administering basic life support interventions. Demonstrates effective communication and decision-making skills while working collaboratively with medical teams. Committed to ensuring prompt response and proper care for patients in emergency situations.

## Employment History

### Emergency Medical Technician at Rapid Response EMS, MI

Feb 2023 - Present

- Successfully responded to over 1,500 emergency calls in one year, providing timely and effective pre-hospital care to patients in need.
- Demonstrated exceptional teamwork by collaborating with fellow EMTs, paramedics, and dispatchers to maintain an average response time of under 9 minutes for high-priority calls.
- Trained and mentored 10 new EMTs, contributing to a 25% increase in the overall efficiency and skill level of the Rapid Response EMS team in Michigan.
- Implemented a new inventory management system for medical supplies, resulting in a 15% reduction in waste and a 10% decrease in supply costs.

### EMT-Basic (or EMT-1) at Superior Mobile Medics, MI

Sep 2022 - Jan 2023

- Successfully responded to and provided immediate medical care for over 500 emergency calls during a one-year period, contributing to a 95% patient survival rate for the team.
- Streamlined the inventory management process for the department's medical supplies, reducing overall supply costs by 10% and ensuring a 100% availability rate for essential equipment during emergency situations.
- Spearheaded a training initiative for new EMT-Basic recruits, leading to a 30% reduction in onboarding time and a 15% increase in first-time pass rates for state certification exams.

## Education

### Emergency Medical Technician Certification at Michigan State University, East Lansing, MI

Aug 2017 - May 2022

Relevant Coursework: Emergency Medical Services, Basic Life Support, Cardiopulmonary Resuscitation, Medical Terminology, Patient Assessment, Airway Management, and Trauma Care.
