PROFILE

Dedicated Environmental Manager with 5 years of experience in developing and implementing effective environmental programs, ensuring compliance with regulations, and promoting sustainability initiatives. Proven track record in managing cross-functional teams, conducting environmental assessments, and driving continuous improvement in environmental performance. Strong analytical and communication skills, with a passion for fostering environmentally responsible business practices.

EMPLOYMENT HISTORY

● Environmental Manager at AECOM, OH

May 2023 - Present

- Successfully reduced the company's overall carbon footprint by 20% within two years by implementing energy-efficient initiatives and promoting sustainable practices among employees.
- Conducted comprehensive environmental audits for over 30 client sites, resulting in a 15% decrease in compliance violations and a 10% reduction in waste generation.
- Led a team that secured \$1.5 million in grants and funding for environmental projects, including wetland restoration and brownfield remediation, improving local ecosystems and reducing pollution.
- Developed and implemented an award-winning Environmental Management System (EMS) that streamlined reporting processes and improved overall regulatory compliance by 25%.

● Assistant Environmental Manager at Davey Resource Group, OH

Sep 2018 - Mar 2023

- Successfully managed a team of 10 environmental specialists, resulting in a 25% increase in overall project efficiency and completion rates.
- Implemented an innovative waste reduction program that led to a 40% decrease in hazardous waste disposal costs and a 15% reduction in the company's carbon footprint.
- Secured over \$500,000 in grant funding for environmental initiatives, enabling the expansion of the company's wetland restoration and tree planting projects by 35%.
- Led a comprehensive environmental audit for the organization, identifying key areas for improvement and implementing new policies that resulted in a 20% decrease in annual energy consumption and a 30% reduction in water usage.
