

HETTIE EDMISTON

Environmental Planner

hettie.edmiston@gmail.com
(486) 800-1028
123 Maple Street, Milwaukee, WI 53202

PROFILE

An Environmental Planner with 2 years of experience adept at analyzing and integrating environmental considerations in land use planning, resource management, and infrastructure development. Proficient in conducting environmental impact assessments and implementing mitigation measures to minimize ecological footprints. Strong ability to collaborate with multidisciplinary teams, engage stakeholders, and ensure compliance with environmental regulations and policies. Committed to fostering sustainable growth and development while preserving the natural environment.

EMPLOYMENT HISTORY

- Environmental Planner at AECOM, WI**
Mar 2023 - Present
 - Successfully completed a comprehensive environmental impact assessment for a major infrastructure project in Wisconsin, resulting in 20% fewer adverse impacts on local ecosystems and regulatory approval within six months.
 - Streamlined the permitting process for a large-scale renewable energy project, reducing permit acquisition time by 30% and saving the client an estimated \$500,000 in development costs.
 - Developed and implemented a habitat restoration plan for a 150-acre wetland area, leading to the re-establishment of native plant species, a 25% increase in local wildlife populations, and recognition from the Wisconsin Department of Natural Resources for outstanding environmental stewardship.
- Associate Environmental Planner at Mead & Hunt, WI**
Aug 2021 - Jan 2023
 - Successfully streamlined the environmental review process for a major highway expansion project, resulting in a 20% reduction in review time and saving the client an estimated \$500,000 in potential delays.
 - Conducted comprehensive wetland delineation surveys for a 100-acre industrial development site, identifying and protecting over 10 acres of high-quality wetlands, ensuring compliance with state and federal regulations.
 - Coordinated with multidisciplinary teams to develop and implement innovative stormwater management strategies for a large-scale residential development, effectively reducing runoff pollution by 30% and meeting stringent local water quality standards.

EDUCATION

- Master of Science in Environmental Planning at University of Wisconsin-Madison, WI**
Sep 2016 - May 2021
Relevant Coursework: Environmental Policy and Planning, Land Use Planning, Water Resource Management, Climate Change Adaptation, Sustainable Development, Geographic Information Systems (GIS), Environmental Impact Assessment, Urban Ecology, Conservation Planning, and Environmental Law and Regulation.

CERTIFICATES

- American Institute of Certified Planners (AICP) Certification**
Apr 2022
