Profile

Results-driven Environmental Services Supervisor with 2 years of experience in managing and optimizing waste management, recycling, and environmental projects. Adept at overseeing staff performance, ensuring compliance with environmental regulations, and implementing sustainable practices to minimize environmental impact. Proven track record of enhancing operational efficiency and cost-effectiveness while maintaining high standards of safety and cleanliness. Strong leadership and problem-solving skills, with a commitment to continuous improvement and environmental stewardship.

Employment History

Environmental Services Supervisor at BioHiTech Global, Inc., SC

Mar 2023 - Present

- Successfully implemented a waste management system that reduced landfill disposal by 35% in the first year, resulting in cost savings of over \$200,000 for BioHiTech Global, Inc.
- Managed a team of 15 environmental service technicians and achieved a 25% increase in productivity through streamlining processes and implementing effective training programs.
- Developed and executed a comprehensive recycling program that increased recycling rates by 40%, contributing to a reduction in the company's carbon footprint.
- Conducted regular audits and inspections to ensure compliance with environmental regulations, resulting in a 100% pass rate and zero fines or penalties for the company during their tenure.

Assistant Environmental Services Supervisor at Santee Cooper Environmental Services, SC

Jul 2021 - Jan 2023

- Successfully reduced energy consumption by 15% through the implementation of energy-efficient practices and technologies, resulting in an annual cost savings of \$200,000 for Santee Cooper Environmental Services.
- Developed and implemented a comprehensive recycling program that increased the facility's recycling rate by 25%, reducing overall waste disposal costs by \$50,000 per year.
- Led a team of 10 employees to maintain a high standard of cleanliness and sanitation across the facility, resulting in a 98% satisfaction rate among clients and stakeholders in annual surveys.
- Coordinated and supervised the safe disposal of over 1,000 tons of hazardous waste materials in compliance with state and federal regulations, preventing potential fines and environmental damage.
