

# Willow Janey

ER Technician

## Profile

Dedicated ER Technician with 1 year of experience in providing efficient and high-quality emergency care in a fast-paced hospital setting. Proficient in performing critical clinical procedures, patient monitoring, and assisting in medical examinations. Demonstrates strong interpersonal skills, quick decision-making abilities, and a deep commitment to patient well-being.

## Employment History

### Emergency Room Technician at Mississippi Medical Response, MS

Apr 2023 - Present

- Successfully managed the triage of over 1,000 patients per month, ensuring timely and accurate assessment of their conditions and prioritization for care in a high-volume emergency room.
- Streamlined patient flow by 20% through the implementation of a new electronic medical records system, reducing wait times and improving overall patient satisfaction.
- Assisted in the stabilization and treatment of over 500 critical patients, including trauma victims, cardiac arrests, and stroke patients, contributing to a 15% increase in survival rates.
- Collaborated with a multidisciplinary team to develop and implement a new emergency response protocol, resulting in a 25% reduction in response time for life-threatening situations.

### ER Technician Assistant at Singing River Health System, MS

Aug 2022 - Feb 2023

- Successfully triaged and provided care for over 50 patients per shift, ensuring timely and accurate assessment of their medical conditions and prioritizing treatment accordingly.
- Streamlined inventory management processes, reducing medical supply waste by 30% and saving the department approximately \$20,000 annually.
- Developed and implemented a new patient tracking system that reduced patient wait times by 25% and improved overall patient satisfaction ratings by 15%.
