HOBBIES

PROFILE

An ETL Consultant with 2 years of experience in designing and implementing efficient data integration processes, leveraging expertise in SQL and ETL tools. Proficient in data quality assurance, performance optimization, and collaborating with cross-functional teams to deliver data-driven solutions. Demonstrated success in managing complex projects and consistently meeting deadlines. Committed to continuous learning and staying current with industry trends to drive innovation and improve overall business performance.

EMPLOYMENT HISTORY

● ETL Consultant at Techwave Consulting Inc., NJ

Mar 2023 - Present

- Led the successful migration of a client's data warehouse, involving over 10 TB of data and resulting in a 20% increase in processing efficiency and a 15% reduction in query response time.
- Developed and implemented an ETL framework which streamlined the data integration process for multiple clients, reducing the average project timeline by 25% and increasing overall client satisfaction by 30%.
- Managed a team of ETL developers and analysts for a complex data migration project, ensuring all deliverables were met on time and within budget, leading to a 95% client retention rate for the company.
- Identified and resolved performance bottlenecks in a client's ETL process, resulting in a 40% improvement in data load times and a 10% reduction in resource consumption, saving the client \$50,000 annually in infrastructure costs.

● Associate ETL Consultant at Dataquest Solutions Corp., NJ

Aug 2021 - Jan 2023

- Successfully managed and executed the integration of data from multiple sources for a major client, resulting in a 25% decrease in data processing time and a 15% increase in overall data accuracy.
- Developed and implemented an optimized ETL process for a critical project, leading to a 30% reduction in data loading time and enabling the client to access real-time insights for informed decision-making.
- Trained and mentored a team of five junior ETL consultants, improving their efficiency and technical skills by 40%, which contributed to the successful completion of three large-scale projects within tight deadlines.
