### Employment History

#### Filenet Developer at Wyoming Filenet Solutions, WY

Feb 2023 - Present

- Developed and implemented a customized Filenet system for a major client, resulting in a 35% increase in their document processing efficiency and saving them over \$500,000 annually.
- Successfully migrated over 2 million documents for a large organization's transition to a new Filenet system, completing the project 3 weeks ahead of schedule and with a 99.8% accuracy rate.
- Led a team of developers in creating a custom Filenet integration for a government agency, enabling them to automate and streamline their document management processes, reducing turnaround times by 40% and cutting costs by 25%.

#### Associate Filenet Developer at Frontier Filenet Developers, WY

Sep 2022 - Dec 2022

- Successfully implemented a new FileNet system for a major client, resulting in a 30% increase in document processing efficiency and a 25% reduction in operational costs.
- Led a team of 5 developers in the migration of over 1 million documents from a legacy system to a new FileNet platform, completing the project 2 months ahead of schedule and with zero data loss.
- Optimized the performance of existing FileNet systems for 3 clients, leading to an average 20% improvement in system response times and a 15% increase in end-user satisfaction.
