### Employment History

#### Fire Alarm Technician at Montana Alarm & Signal, MT

Feb 2023 - Present

- Successfully installed and tested over 50 fire alarm systems in commercial and residential properties across Montana, resulting in a 100% pass rate for all safety inspections.
- Efficiently responded to and resolved over 200 emergency service calls within an average of 2 hours, ensuring minimal downtime and maintaining excellent customer satisfaction ratings.
- Conducted comprehensive maintenance and inspection services on more than 300 fire alarm systems annually, achieving a 98% compliance rate with state and local regulations.
- Spearheaded a team training initiative that increased overall technical knowledge and skill level of junior technicians by 25%, resulting in improved work quality and reduced service call times.

#### Fire Alarm Technician Apprentice at Mountain West Systems, MT

Sep 2022 - Dec 2022

- Successfully completed a 6-month apprenticeship program at Mountain West Systems, gaining hands-on experience in fire alarm system installation, maintenance, and troubleshooting.
- Assisted in the installation of over 50 fire alarm systems across various commercial and residential properties, significantly improving the safety of the occupants and adhering to local fire safety regulations.
- Conducted regular maintenance checks for over 100 existing fire alarm systems, ensuring a 99% uptime and minimizing the risk of false alarms or system failures.
- Collaborated with a team of experienced fire alarm technicians to troubleshoot and resolve complex issues in 20 cases, resulting in a 100% success rate in restoring full functionality to the affected systems.

### Certificates

#### National Institute for Certification in Engineering Technologies (NICET) Level II Fire Alarm Systems

Aug 2021

#### Electronic Security Association's National Training School Certified Fire Alarm Technician (ESA/NTS CFAT)

Nov 2019
