

Leetha Shaughnessy

Forklift Mechanic

Profile

Results-driven Forklift Mechanic with 2 years of experience in diagnosing, repairing, and maintaining various types of forklifts. Proficient in hydraulic systems, electrical systems, and engines, ensuring optimal performance and safety. Committed to providing excellent customer service and adhering to industry standards. Demonstrated ability to troubleshoot complex issues and work effectively in a fast-paced environment. Strong communication and teamwork skills, consistently contributing to the success of the team.

Employment History

Forklift Mechanic at Scott Equipment Company, LA

Feb 2023 - Present

- Successfully maintained a fleet of over 50 forklifts, resulting in a 98% uptime rate and reducing equipment downtime by 25% over a 3-year period.
- Implemented a preventive maintenance program that reduced breakdowns by 40% and increased the average lifespan of forklifts by 3 years, saving the company \$75,000 in repair and replacement costs.
- Trained and mentored 5 junior mechanics, improving overall team efficiency by 20% and reducing annual employee turnover by 15%.
- Streamlined the parts inventory system, cutting down on excess stock and reducing annual inventory carrying costs by \$30,000.

Forklift Mechanic Apprentice at Deep South Equipment, LA

Aug 2021 - Jan 2023

- Successfully repaired and maintained over 150 forklifts within the first year of apprenticeship, resulting in increased productivity and reduced downtime for clients.
- Assisted in reducing equipment malfunctions by 20% through the implementation of a new preventive maintenance program, leading to increased customer satisfaction and repeat business.
- Streamlined the inventory management process for spare parts, reducing order lead time by 30% and ensuring timely repairs for customers.
