

# Emilea Lunder

Generator Technician

## Profile

Diligent Generator Technician with 1 year of experience in installation, maintenance, and repair of various generator systems. Adept at troubleshooting and diagnosing issues, performing preventative maintenance, and ensuring optimal generator performance. Strong commitment to safety, customer satisfaction, and continuous learning, with a proven ability to work both independently and in team settings.

## Employment History

### Generator Technician at Wyoming Generator Services, WY

Feb 2023 - Present

- Successfully installed and maintained over 150 generators across Wyoming within a year, ensuring optimal performance and a 99% uptime for all clients.
- Streamlined the troubleshooting process by creating a comprehensive diagnostic guide, reducing average repair time by 35% and increasing overall customer satisfaction.
- Led a team of 5 technicians to complete a large-scale project involving the upgrade of 50 commercial generators within a tight 3-month deadline, resulting in a 20% increase in energy efficiency and cost savings for clients.

### Generator Technician Assistant at Rocky Mountain Generator Services, WY

Sep 2022 - Jan 2023

- Successfully assisted in the installation and maintenance of over 50 generators across various commercial and residential sites, resulting in a 98% customer satisfaction rate for Rocky Mountain Generator Services.
- Efficiently diagnosed and repaired 30+ complex generator issues within the first six months of employment, significantly reducing equipment downtime and increasing overall productivity by 15%.
- Played an instrumental role in a major project involving the upgrade of generator systems for a large industrial client, resulting in a 20% increase in energy efficiency and securing a long-term service contract worth \$150,000.
