

Brienna Crapsey

Software Developer

Profile

I am a Software Developer with over 1 year of experience in developing innovative solutions for a wide range of clients. I have a strong understanding of object-oriented programming, database design, and software architecture. I have also worked with a variety of programming languages, such as Java, JavaScript, and C++. My experience also includes working on projects related to web and mobile applications, as well as database systems. I am a highly motivated individual, driven to deliver high-quality solutions that exceed client expectations. I am eager to join an innovative team and contribute to the development of successful applications.
