Alaysia Majeres

Software Release Engineer

✉ alaysia.majeres@gmail.com
📞 (265) 170-6234
📍 Portland, ME

Profile

I am a Software Release Engineer with over 2 years of experience. I have a comprehensive knowledge of software engineering principles, version control systems, and release management processes. My expertise lies in designing and implementing automatic release processes to improve the quality and efficiency of software releases. I have been involved in end-to-end software releases and have successfully managed multiple software releases. I have a track record of effectively managing the software build, release, and deployment processes. I have also worked on developing tools and scripts to automate release process and build pipeline.

Employment History

Senior Software Release Engineer at Autodesk, ME

Nov 2022 - Present

- Led the successful deployment of over 200 Autodesk software releases, achieving a 99% success rate in ME region.
- Developed and implemented an automated release process which reduced manual testing time by 40%, while also increasing overall quality assurance standards.
- Established strong relationships with internal stakeholders to ensure timely delivery of all projects according to customer requirements and expectations.
- Streamlined product lifecycle management processes for increased efficiency resulting in 20% reduction in development costs across ME market.

Software Release Engineer at Red Hat, ME

Aug 2021 - Sep 2022

- Successfully released over 30 software products to the Red Hat Enterprise Linux (RHEL) platform in a 12-month period, contributing significantly towards meeting organizational goals.
- Developed and implemented an automated system for release management of RHEL packages that increased efficiency by 25%.
- Streamlined existing processes related to product releases resulting in decreased time spent on deployments from 3 days down to 1 day.
- Collaborated closely with other teams such as QA and Development, ensuring successful integration of new features into each subsequent version while maintaining high quality standards.

Certificates

Certified Software Release Engineer (CSRE)

Sep 2021

Certified DevOps Professional (CDPO)

Jun 2020

Education

### Bachelor of Science in Software Engineering at University of Maine, Orono, ME

Aug 2017 - May 2021

Relevant Coursework: Algorithms, Data Structures, Database Management, Operating Systems, Computer Networks, Programming Languages, Software Design, Software Development.
