Profile

Dedicated Health Coordinator with 2 years of experience in managing and improving healthcare services. Adept at coordinating care plans, facilitating communication between healthcare professionals, and implementing health promotion initiatives. Proven ability to analyze health trends and develop targeted interventions, demonstrating strong organizational and multitasking abilities. Committed to enhancing the overall well-being of patients and fostering a collaborative healthcare environment.

Employment History

Health Coordinator at Mississippi Health Partners, MS

Feb 2023 - Present

- Successfully implemented a new electronic health records system across all Mississippi Health Partners facilities, resulting in a 20% increase in patient data accuracy and a 15% reduction in administrative time spent on data entry.
- Coordinated and executed a comprehensive community health outreach program that provided preventive care services to over 5,000 underserved individuals in rural areas, leading to a 25% reduction in emergency room visits for preventable conditions.
- Developed and managed a team of 30 healthcare professionals in coordinating patient care, achieving a 98% patient satisfaction rating and reducing average patient wait times by 35%.
- Secured \$500,000 in grant funding for Mississippi Health Partners' initiatives focused on addressing mental health disparities among low-income populations, resulting in the establishment of three new mental health clinics in underserved communities.

Assistant Health Coordinator at Magnolia Health, MS

Jul 2021 - Jan 2023

- Successfully managed and coordinated healthcare services for over 1,000 Magnolia Health members in Mississippi, ensuring timely and efficient delivery of care while maintaining a 95% satisfaction rate among members.
 - Developed and implemented a new health education program that reached more than 500 members within the first six months, resulting in a 20% increase in preventive care visits and a 15% reduction in emergency room visits.
 - Streamlined the referral process for specialty care services by collaborating with primary care providers and specialists, leading to a 30% decrease in wait times for appointments and a 10% improvement in overall care coordination.
