Profile

An HSE Specialist with 2 years of experience in ensuring workplace safety and compliance with health, safety, and environmental regulations. Demonstrates a strong ability to identify hazards, conduct risk assessments, and implement effective control measures. Proficient in training employees on HSE principles and conducting audits to ensure continuous improvement. Adept at collaborating with cross-functional teams to promote a proactive safety culture and maintain regulatory compliance.

Employment History

HSE Specialist at Total Safety US Inc., LA
Mar 2023 - Present

- Decreased workplace accidents by 35% within the first year of implementation by conducting thorough risk assessments and implementing effective safety controls at Total Safety US Inc., LA.
- Increased employee safety training participation by 50% within six months, resulting in improved safety awareness and reduced incident rates across the company.
- Successfully managed and closed over 100 HSE incident investigations, reducing the average time taken for resolution by 40% and ensuring timely corrective actions were implemented.
- Developed and implemented a comprehensive HSE management system that led to a 25% reduction in lost-time injuries and a 20% improvement in overall safety performance metrics.

HSE Coordinator at Shell Exploration & Production Company, LA
Jul 2021 - Feb 2023

- Reduced the number of workplace accidents by 35% within a year through implementation of strict safety protocols and regular safety training sessions for employees.
- Improved overall safety compliance rate by 50% in two years, resulting in fewer regulatory fines and a safer working environment for all employees.
- Developed and implemented an emergency response plan that reduced incident response time by 25%, ensuring quick action in case of hazardous situations.
- Successfully managed a team of 10 HSE professionals, achieving a 95% on-time completion rate for all HSE projects and initiatives within the company.
