

# Vernett Kozubal

## Infrastructure Project Manager

### Profile

An Infrastructure Project Manager with 5 years of experience in successfully delivering complex infrastructure projects across various industries. Possesses exceptional skills in project planning, execution, and risk management, while ensuring projects are completed on time and within budget. Expert in collaborating with cross-functional teams, stakeholders, and vendors to deliver high-quality results that drive business growth and efficiency. Demonstrated ability to adapt to new technologies and methodologies, with a proven track record in fostering a culture of continuous improvement and innovation.

### Employment History

#### Infrastructure Project Manager at John Holland Group, WA

Apr 2023 - Present

- Successfully managed the delivery of a \$50 million railway infrastructure project in Western Australia, ensuring its completion 3 months ahead of schedule and 10% under budget, resulting in significant savings for John Holland Group.
- Led a cross-functional team of over 100 engineers, technicians, and support staff to achieve a 25% reduction in downtime and service disruptions during the construction of critical transportation infrastructure in Perth, leading to increased customer satisfaction and a positive impact on the company's reputation.
- Implemented innovative risk management strategies, reducing safety incidents by 40% and achieving a record-breaking 500,000 working hours without lost time injury (LTI) on a major highway construction project in Western Australia.

#### Assistant Infrastructure Project Manager at , WA

Jul 2018 - Feb 2023

- Successfully managed the completion of a \$10 million infrastructure project in Seattle, WA, which involved upgrading 5 miles of roadways and installing new traffic signals, ultimately improving traffic flow by 25%.
- Coordinated with a team of 20 engineers, architects, and construction workers to complete a \$15 million bridge rehabilitation project in Tacoma, WA, on-time and within budget, resulting in a 30% increase in load capacity and extending the bridge's lifespan by 20 years.
- Oversaw the implementation of a \$7 million water treatment facility upgrade in Spokane, WA, which increased the facility's capacity by 40% and reduced energy consumption by 15%, significantly improving the city's water quality and sustainability efforts.

### Certificates

Project Management Professional (PMP)

✉ [vernett.kozubal@gmail.com](mailto:vernett.kozubal@gmail.com)

☎ (100) 664-0744

📍 1234 Evergreen Terrace, Seattle, WA 98101

### Education

#### Bachelor of Science in Civil Engineering at University of Washington, Seattle, WA

Aug 2013 - May 2018

Relevant Coursework: Structural Analysis, Geotechnical Engineering, Transportation Engineering, Environmental Engineering, Fluid Mechanics, Engineering Materials, Construction Management, Surveying, Hydraulic Engineering, and Project Management.
