Profile

Detail-oriented Inventory Analyst with 1 year of experience in analyzing and optimizing inventory levels, implementing cost-effective strategies, and ensuring efficient supply chain operations. Adept at forecasting demand, reducing stock discrepancies, and providing data-driven insights to improve overall inventory management. Proficient in leveraging analytical tools and collaborating with cross-functional teams to achieve business objectives while maintaining high levels of customer satisfaction.

Employment History

Inventory Analyst at Under Armour, MD

Apr 2023 - Present

- Successfully reduced excess inventory by 30% within the first year, resulting in a cost savings of \$1.5 million for Under Armour, MD, by implementing data-driven inventory optimization strategies and collaborating with cross-functional teams.
- Streamlined the demand forecasting process, leading to a 25% improvement in forecast accuracy and a 15% reduction in stockouts across key product categories, which contributed to a 10% increase in overall sales revenue for the company.
- Developed and executed a comprehensive inventory management plan for a major product launch, ensuring 98% on-time delivery to over 500 retail locations, while simultaneously maintaining optimal inventory levels and minimizing carrying costs.

Associate Inventory Analyst at Stanley Black & Decker, MD

Jul 2022 - Mar 2023

- Successfully reduced inventory carrying costs by 15% (\$1.2 million) through the implementation of a data-driven forecasting model that optimized stock levels across multiple warehouses.
- Streamlined the order processing system, resulting in a 20% decrease in order lead time and improving customer satisfaction by 10%.
- Identified and resolved discrepancies in inventory records, leading to a 5% reduction in stock obsolescence and saving the company \$500,000 in potential write-offs.
- Spearheaded a cross-functional team in the development of a new inventory management software, leading to a 25% increase in efficiency for inventory tracking and reporting processes.
