Dedicated Inventory Control Manager with 5 years of experience in managing and optimizing inventory levels, overseeing purchasing processes, and implementing effective control systems. Proven track record in reducing stock discrepancies, improving order accuracy, and streamlining warehouse operations. Expert in implementing data-driven strategies to maximize efficiency and cost savings while maintaining exceptional customer service. Strong leadership and team building skills, with a commitment to continuous improvement in the supply chain management field.

Inventory Control Manager at Keurig Green Mountain, VT

Feb 2023 - Present

- Successfully reduced inventory discrepancies by 25% within the first year through the implementation of improved tracking and auditing processes, resulting in annual savings of \$1.5 million for Keurig Green Mountain.
- Streamlined warehouse operations by implementing a new Warehouse Management System (WMS), increasing picking accuracy by 30% and reducing order processing time by 20%, leading to enhanced customer satisfaction and timely deliveries.
- Led a team of 50 employees in achieving a 98% inventory accuracy rate and maintaining it consistently for two consecutive years, surpassing the company's target of 95%.
- Developed and executed a comprehensive inventory reduction plan that resulted in a 15% reduction in excess stock and reclaimed over 10,000 square feet of warehouse space, saving the company \$500,000 in storage costs annually.

Inventory Control Supervisor at G.S. Precision, VT

Aug 2018 - Jan 2023

- Reduced annual inventory discrepancies by 30% through the implementation of a new inventory management system and regular audits, resulting in significant cost savings for G.S. Precision.
- Streamlined warehouse operations by leading a team to reorganize storage layout, increasing picking efficiency by 20% and reducing labor costs by 15%.
- Successfully trained and supervised a team of 10 inventory control specialists, achieving a 95% accuracy rate in inventory counts and reducing stock discrepancies by 25%.
- Developed and implemented an automated inventory tracking system that reduced manual data entry errors by 40%, leading to more accurate inventory records and improved order fulfillment rates.
