Employment History

Journeyman Ironworker at Ironworkers Local 11, NJ

Mar 2023 - Present

- Successfully completed the installation of over 2,500 tons of structural steel for the 1.5 million square feet expansion project of a major commercial complex in New Jersey, within the stipulated deadline and adhering to safety standards.
- Efficiently led a team of 15 ironworkers in the assembly and installation of a 200-foot-long pedestrian bridge, ensuring a 95% reduction in on-site accidents and completing the project two weeks ahead of schedule.
- Played a crucial role in the repair and reinforcement of a 10-mile stretch of highway infrastructure, which included the replacement of 50,000 square feet of steel decking, resulting in a 30% increase in the load-bearing capacity of the highway.

Apprentice Ironworker at Union Ironworkers Local 399, NJ

Jul 2019 - Feb 2023

- Successfully completed 5 major construction projects within the first year of apprenticeship, contributing to a 10% increase in overall annual revenue for Union Ironworkers Local 399, NJ.
- Efficiently fabricated and installed over 1,500 tons of structural steel in various projects, exceeding the average productivity rate by 15% and consistently receiving positive feedback from supervisors for exceptional work quality.
- Actively participated in a safety committee that implemented new safety protocols, resulting in a 20% reduction in workplace accidents and injuries within the first 6 months of implementation, thereby improving overall workplace safety standards.
