

Johnnae Medelez

Junior Data Analyst

Profile

Junior Data Analyst with 1 year of experience in leveraging data-driven insights to drive business improvement and optimize overall performance. Proficient in data visualization, statistical analysis, and machine learning techniques. Adept at collaborating with cross-functional teams, identifying trends, and transforming complex data sets into actionable recommendations. Strong analytical, problem-solving, and communication skills, with a proven track record of delivering data-driven solutions to support business growth.

Employment History

Junior Data Analyst at Pacific Shipyards International, HI

May 2023 - Present

- Successfully streamlined data processing workflows, resulting in a 20% increase in efficiency and a 15% reduction in processing time for key performance reports at Pacific Shipyards International.
- Conducted in-depth data analysis on shipyard operations, identifying opportunities for cost savings and improving operational efficiency, ultimately saving the company \$500,000 per year.
- Developed and implemented an automated data validation system that reduced data entry errors by 30% and improved overall data quality and accuracy.
- Led a cross-functional team in the creation of a new database management system, which improved data accessibility and collaboration among departments, resulting in a 25% increase in productivity.

Entry-Level Data Analyst at Hawaiian Electric Industries, HI

Sep 2022 - Apr 2023

- Successfully developed and implemented a data-driven forecasting model for energy consumption, resulting in a 15% increase in forecast accuracy and a 10% reduction in energy waste.
- Streamlined the data collection process for key performance indicators, reducing data processing time by 25% and increasing overall efficiency of the analytics team.
- Identified opportunities for cost savings in the company's supply chain through rigorous data analysis, leading to a 5% reduction in operational costs and a savings of \$100,000 annually.
- Presented data-driven insights and recommendations to senior management, directly contributing to the implementation of a new energy efficiency initiative that reduced greenhouse gas emissions by 3,000 metric tons per year.

Education

Bachelor of Science in Data Analytics at University of Hawaii at Manoa, Honolulu, HI

Aug 2017 - May 2022
