

Andera Wunder

Lathe Operator

Profile

Dedicated Lathe Operator with 1 year of experience in operating and maintaining lathe machines to produce high-quality precision parts. Skilled in reading and interpreting blueprints, adhering to safety protocols, and ensuring efficient production. A quick learner and team player, focused on contributing to organizational success and continuous improvement.

Employment History

Lathe Operator at Wyoming Machine Company, WY

Feb 2023 - Present

- Successfully increased production efficiency by 20% within the first six months of employment, through process optimization and implementation of lean manufacturing principles.
- Reduced machine downtime by 15% by performing regular preventative maintenance, leading to an increase in overall productivity for Wyoming Machine Company.
- Consistently maintained a 99% accuracy rate on all parts produced, ensuring high-quality products and customer satisfaction.
- Trained and mentored four new lathe operators, increasing the department's capacity and contributing to a 10% increase in overall output.

CNC Lathe Operator at Laramie Machine Works, WY

Sep 2022 - Dec 2022

- Increased production efficiency by 15% within one year by optimizing CNC lathe programming, leading to a reduction in machine setup time and improved cycle times at Laramie Machine Works, WY.
- Successfully completed a high-priority project for a major client, delivering 500 precision-machined components within a tight deadline of 4 weeks, leading to a 20% increase in repeat business.
- Reduced material waste by 10% through implementing effective tooling strategies and continuous process improvements, resulting in annual cost savings of \$8,000.
- Trained and mentored 3 new CNC lathe operators, improving their skill sets and enabling them to independently manage production tasks within 6 months, leading to a more efficient and versatile team.

Education

Diploma in Lathe Machine Operation at Wyoming Technical Institute, WY

Sep 2017 - May 2022

Relevant Coursework: Lathe Machine Operation, Precision Machining, Technical Drawing, Metrology and Instrumentation, CNC Programming, Machine Maintenance, and Workplace Safety.
