Profile

Results-oriented Lean Consultant with 5 years of experience in driving operational excellence through lean methodologies. Demonstrated success in transforming businesses by streamlining processes, reducing waste, and increasing efficiency. Proven ability to lead cross-functional teams, train employees on lean principles, and implement sustainable improvements. Strong analytical and problem-solving skills complemented by excellent communication and interpersonal abilities. Passionate about fostering a culture of continuous improvement and delivering long-term value to clients.

Employment History

Lean Consultant at MainePointe, ME

Feb 2023 - Present

- Reduced operational costs by 25% for a major manufacturing client: Implemented Lean methodologies and streamlined processes, which resulted in an annual cost savings of over \$10 million and increased overall production efficiency by 15%.
- Increased on-time delivery rate by 35% for a large logistics company: Conducted root-cause analysis and optimized supply chain operations, leading to a significant improvement in the client's on-time delivery performance and a 20% reduction in lead times.
- Boosted gross profit margin by 10% for a mid-sized food processing firm: Identified and eliminated waste in their production process, leading to an increase in product quality, reduced rework, and a direct impact on the company's bottom line.

Associate Lean Consultant at GoLeanSixSigma, ME

Jul 2018 - Jan 2023

- Successfully led a Lean Six Sigma project that resulted in a 25% reduction in process cycle time, leading to an annual cost saving of \$100,000 for the client.
- Streamlined workflow processes for a major manufacturing company, leading to a 15% increase in production efficiency and a subsequent 10% reduction in labor costs.
- Facilitated a series of Kaizen events for a healthcare organization, resulting in a 30% decrease in patient wait times and a 20% improvement in overall patient satisfaction scores.
- Developed and delivered Lean Six Sigma training programs to over 200 employees, contributing to a company-wide culture shift towards continuous improvement and a 12% increase in overall operational efficiency.
