A dedicated and creative Lighting Designer with 1 year of experience in crafting innovative lighting solutions for various projects. Proficient in using the latest technology and software to bring clients' visions to life while ensuring energy efficiency and sustainability. Strong collaboration and communication skills to work effectively with clients, architects, and engineers. Committed to continuous learning and staying up-to-date with industry trends to deliver cutting-edge designs.

Lighting Designer at Shive-Hattery, IA

Mar 2023 - Present

- Designed and implemented a comprehensive lighting system for a 50,000 sq. ft. commercial building, resulting in a 30% reduction in energy consumption and \$40,000 annual cost savings for the client.
- Successfully managed the lighting design for a \$2 million public park renovation project, incorporating innovative LED technology and sustainable materials to create a visually stunning and energy-efficient environment.
- Collaborated with a team of architects and engineers to develop custom lighting solutions for a 20-story office building, enhancing occupant comfort and productivity while adhering to strict energy code requirements.
- Received an industry award for excellence in lighting design for a high-profile restaurant and entertainment complex, which featured creative use of color temperature and dynamic controls to create an immersive dining experience.

Assistant Lighting Designer at RDG Planning & Design, IA

Aug 2022 - Jan 2023

- Successfully collaborated with the lead lighting designer to complete the lighting design for over 50 projects, resulting in a 30% increase in client satisfaction ratings within a year.
 - Assisted in reducing energy consumption by 25% across all projects by implementing energy-efficient lighting solutions and adhering to LEED guidelines.
 - Played a key role in securing three major contracts worth over \$2 million combined by presenting innovative and cost-effective lighting designs that met clients' needs and exceeded their expectations.
-

Bachelor of Fine Arts in Lighting Design at University of Northern Iowa, Cedar Falls, IA

Sep 2017 - May 2022
