PROFILE

Dedicated Loader Operator with 1 year of experience in efficiently operating heavy machinery for material handling, loading, and site preparation. Proficient in performing routine equipment maintenance, ensuring safety procedures, and collaborating with the team to achieve project goals. Demonstrates a strong work ethic, adaptability, and commitment to continuous improvement.

EMPLOYMENT HISTORY

● Loader Operator at United States Gypsum Company, MS

Mar 2023 - Present

- Successfully loaded an average of 1,200 tons of gypsum per day, resulting in a 15% increase in daily production and contributing to the company's overall growth.
- Implemented a new pre-loading inspection routine that reduced equipment downtime by 20%, increasing overall productivity and efficiency in the loading process.
- Trained and mentored four new loader operators, improving their skills and reducing onboarding time by 30% while maintaining a safe and efficient working environment.
- Collaborated with the maintenance team to optimize the preventive maintenance schedule, leading to a 10% reduction in unplanned equipment breakdowns and minimizing delays in the loading process.

● Assistant Loader Operator at Waste Management, MS

Jul 2022 - Feb 2023

- Successfully coordinated the loading of over 200 vehicles daily, ensuring timely and efficient waste collection services for over 10,000 customers in the MS region.
- Improved overall safety record by implementing new safety procedures and conducting regular safety briefings, resulting in a 25% decrease in workplace accidents within the first year.
- Streamlined the loading process by optimizing routes and schedules, leading to a 15% increase in productivity and a 10% reduction in fuel consumption.
- Played an integral role in the successful integration of a new recycling program, which led to a 20% increase in recycling rates and a 15% reduction in landfill waste in the MS area.
