

# Jazmarie Genthe

Marine Technician

## Profile

Marine Technician with 1 year of experience in maintaining, repairing, and troubleshooting marine systems and equipment. Proficient in diagnostics, engine repairs, and electrical systems, with a commitment to safety and efficiency. Strong communication and problem-solving skills, with a demonstrated ability to work effectively both independently and in team settings. Eager to contribute to the continuous improvement of marine operations and maintenance processes.

## Employment History

### Marine Technician at Marine Technical Services, Inc., MS

Feb 2023 - Present

- Successfully completed the overhaul and repair of 12 marine engines within a year, resulting in a 25% increase in overall efficiency for the company's fleet.
- Led a team of 8 technicians in the implementation of a new maintenance management system, reducing equipment downtime by 15% and increasing overall productivity by 10%.
- Conducted comprehensive inspections and diagnostics on over 50 marine vessels, leading to the identification and resolution of critical issues that saved the company \$500,000 in potential repair costs.
- Developed and delivered training programs for 20 new marine technicians, improving their technical knowledge and skills by 30% and significantly reducing on-the-job accidents and errors.

### Marine Technician Assistant at , MS

Aug 2022 - Jan 2023

- Assisted in the maintenance and repair of over 80 marine vessels, resulting in a 90% reduction in equipment downtime and a 20% increase in operational efficiency.
- Conducted thorough inspections and diagnostic tests on marine engines, electrical systems, and navigation equipment, identifying and resolving over 200 issues to ensure full compliance with safety regulations and optimal performance.
- Successfully completed a six-month project to upgrade the onboard communication systems of 45 vessels, enhancing connectivity and data transmission capabilities by 30%.
- Implemented a streamlined inventory management system for the storage and tracking of essential spare parts and tools, reducing procurement lead time by 15% and saving the company \$50,000 annually in operational costs.
