Profile

I am a seasoned Full Stack Developer with over 3 years of experience in the development industry. I have a strong track record of delivering projects on time and on budget, while also leading my team to success. My expertise includes web development, database design and optimization, software architecture, and mobile development. I am experienced in multiple programming languages such as JavaScript, HTML, CSS, and PHP. With my strong background in software engineering, I am able to develop robust, secure, and user-friendly applications. I am passionate about creating innovative solutions that solve user problems and improve the user experience. Additionally, I am adept in utilizing Agile and Scrum methodologies for efficient project management.

Employment History

Lead Full Stack Developer at Quicken Loans, MI

Jan 2023 - Present

- Developed a complex web application that significantly reduced the time required to process loan applications by 35%, resulting in a 10% increase in customer satisfaction.
- Implemented a new API that enabled Quicken Loans to securely process customer data in half the time, resulting in a 15% decrease in processing time.
- Led a team of 5 developers in creating a mobile application that improved the customer experience by providing real-time updates on loan status, resulting in an 8% increase in user engagement.

Senior Full Stack Developer at Ford Motor Company, MI

Aug 2020 - Nov 2022

- Successfully developed a customer-facing web application for Ford Motor Company's customer service portal, resulting in a 25% increase in customer satisfaction ratings and a 15% reduction in customer service inquiries.
- Developed a new vehicle maintenance system that improved dealer service efficiency by 20%, resulting in an estimated \$1.2 million in cost savings annually.
- Implemented a new inventory tracking system that allowed the company to reduce its inventory costs by 10%, resulting in an estimated \$500,000 in annual savings.
