

Sharnice Reyman

Software Deployment Engineer

✉ sharnice.reyman@gmail.com

☎ (447) 965-0422

📍 Trenton, NJ

Education

**Bachelor of Science in
Software Engineering at
Rutgers University, New
Brunswick, NJ**

Sep 2017 - May 2021

Relevant Coursework:

Algorithms and Data
Structures, Operating Systems,
Database Systems, Programming
Languages and Compilers,
Software Engineering, Computer
Networks and Distributed
Systems.

Profile

I am an experienced Software Deployment Engineer with over two years of experience in deploying and maintaining software applications. I have a strong understanding of the software development life cycle and I am highly skilled in deploying and troubleshooting applications. My technical expertise includes Windows OS, Linux OS, Microsoft Office, and SQL Server. I am also proficient in installing, configuring, and troubleshooting hardware and software components. Additionally, I am capable of creating detailed documentation and reports pertaining to software deployments. I am well-versed in the principles of software engineering and can effectively manage projects from conception to completion. I am a highly motivated individual with strong organizational and problem-solving abilities.

Employment History

Senior Software Deployment Engineer at DataYard, NJ

Nov 2022 - Present

- Streamlined the deployment process of a new software system at DataYard, NJ, reducing the time needed for deployment by 35%. This included automating the installation process and making several improvements to the existing system.
- Developed a secure, automated system to monitor the performance of software deployments, which improved the accuracy of data tracking by over 80%.
- Improved the efficiency of the software deployment team by 50% by introducing a new system for managing the deployment process. This included creating custom scripts to automate tasks and implementing an efficient workflow.

Software Deployment Engineer at Microsoft Corporation, NJ

Jul 2021 - Sep 2022

- Deployed Microsoft Office 365 to over 500 users in 5 states, resulting in improved productivity and efficiency.
- Developed automated deployment scripts for Windows 10 to reduce deployment time by 50%.
- Defined and implemented best practices for software deployments, resulting in a 25% reduction in deployment errors.

Certificates

Certified Software Deployment Engineer (CSDE)

Mar 2021

Certified Cloud Computing Professional (CCCP)

Nov 2019

Memberships

Association for Computing Machinery (ACM)

Institute of Electrical and Electronics Engineers (IEEE)
